EDU-Play Programs, Inc.

## Infant/Toddler Development and Family Support Program

Beginning April 27<sup>th</sup> Step by Step will be offering a 9 week Infant/toddler Stay and Play class for families who are concerned about their baby's development and either may not be eligible or may be waiting for services to begin. This service will be provided at a very low cost to the families. (\$ 10 dollars for a 1 ½ hours) This program will be partially underwritten through generous donations made to TIPS Tools for Intervention and Practical Strategies, a nonprofit organization that supports activities for people who live, play, and work with or have a developmental disability.

Classes will be offered for infants, 9-15 months and toddlers 15-24 month. The classes will be offered Mondays, Fridays and Saturdays. More classes will open as necessary. This is a stay and play group. Mommies, Daddies, or caregivers will participate in a developmental play group facilitated by an early interventionist and an intervention assistant. Other therapists will be invited guests including a speech therapist, occupational therapist and a physical therapist.
